FASTRAK™

MICROSOFT | SAP HOSTED ENVIRONMENT

Customers want quick access to an environment to be able to conduct a proof-of-concept, develop customer specific scenarios to support justification of business cases and/or evaluate the technology to provide early input in the procurement cycle.

CURRENT CUSTOMER CHALLENGES

For most organizations, to get such an environment procured, installed, configured to support such requirements presents some issues:

- **Customers/Partners want quick access to a Microsoft-SAP environment**
- **They want to be able to conduct a proof-of-concept, rapid prototyping, develop customer specific scenarios**
- **Significant hardware investment**
- **No training or guidance regarding the new environment**
- **Unnecessary drain on internal IT and business resources**

BENEFITS OF FASTRAK™

- **Customers have easy access to a fully integrated and dedicated Microsoft-SAP hosted environment**
- **Low startup cost by requiring no hardware/software procurement by the customer**
- **No impact or dependencies on internal IT environment or resources**
- **Environment available in approximately one (1) week**
- **Development can start immediately once the environment is received**
- **Self-paced training and professional guidance through the *Microsoft & SAP Solution Series* workbooks**
- **Includes prebuilt and scripted demos that immediately showcase solutions to business decision makers and development teams**
